

triogen[®] UV Service kits are original high-quality triogen components, so throughout the entire lifecycle of a triogen[®] UV, trouble-free and energy-efficient operation is ensured. We have developed the kits carefully based on our product and application experience to facilitate regular and most common service and repair operations. Service kits are the fast and easy way to purchase and stock most necessary spare parts, saving lot of time and effort in maintenance.

BENEFITS

- Easy and convenient parts purchase for standard products
- Flexible acquisition options
- Installation reliability with fully documented and tested parts
